Overhead Crane Modernization/Refurbishment

Craneium is Western Canada's leading supplier of Overhead Crane refurbishments and modernizations. In addition to fully managed – turnkey projects, Craneium offers our *"Mod in a Box"* program, a service that provides for all the same high quality components, project design and documentation that our customers have come to expect, with field installation labour carried out by the customer's in-house technical personnel.

Please contact your nearest Craneium office for more information.
